

# Arizona Section Newsletter October 2019

## Arizona Section Manager, Rick Paquette W7RAP

We lost a great supporter and Staff member this month with the passing of Grant Hayes WB6OTS. Grant was a good friend and served the ARRL-AZ Staff as\_ Arizona ARRL Asst Section Manager since 2008, Official Relay Station since 1975. Emergency Coordinator since 1993. and the Nat'l Traffic System Mgr since 1996. Grant was very involved with Scouting and had several awards for introducing Amateur Radio to Scouts. His boots will surely be hard to fill.

## U-Of-A Sets The Pace For Amateur Intercollegiate Activities:

ARRL Director of Development Mr. Bob Interbitzen (N1Q1R), visited Arizona last week to initiate a program to stimulate growth of Amateur Radio clubs in Americas universities. First, he attended a local VE exam session to see how our processes succeeds in turning out so many new hams every month (67 last month) . On Wednesday night, Bob visited the U-of-A Ham Shack in the university Engineering building, and socialized with the K7UAZ club members , before initiating the new ARRL Collegiate Amateur Radio Initiative (CARI) Facebook webinar to the many participating university clubs. The half-hour forum covered topics including how to recruit student members, popular activities for campus radio clubs, and Amateur Radio as a springboard for career connections, networking, and practical experience. The event was streamed live on the ARRL Collegiate Amateur Radio Initiative (**CARI**) Facebook group, where collegiate radio clubs share information, techniques, and resources. The **ARRL Collegiate Amateur Radio Initiative** is sponsored in part by the W1YSM Snyder Family Collegiate Amateur Radio Endowment Fund. The ARRL plans a number of activities next year to focus on a prime source for new amateurs.

VE Test Session Conducted by the RST VE Team

ARRL Collegiate Initiative Webinar

### **Duke City Hamfest and Convention Focuses on New Volunteer Monitor Program:**

ARRL-AZ Staff members attended the Duke City Ham Convention in September. We helped the programs with presentations, DXCC Checking and Training, as well as visiting with the program speakers, including Riley Hollingsworth (K4ZDH), leader of the new Volunteer Monitor program, and former Special Counsel for the FCC's Enforcement Division.

Riley gave a presentation during the day, and added to the discussion, as the featured speaker at the Evening Banquet. I was fortunate to sit with him during the banquet, and we shared some of the issues and concerns about the ability of the VM program to accomplish what the amateur community wants and needs.

He explained that the Official Observer program has recently been stymied by budget cutbacks in the FCC and their need to focus on a greatly increasing volume of Commercial operations issues (including the recent Broadband over Power-Lines concerns).

Recently, the FCC Enforcement Division experienced a severe cutback in staff, and has had to devote all of its attention to higher-priority concerns, leaving the Amateur support virtually unsupported. There are still some Amateur related actions that are being addressed, but we have not seen the sort of enforcement actions we would like.

Even so, the OO program was really intended to be a means to self-reconcile our actions and environment, and do whatever we could to remediate issues among ourselves, thus relieving the FCC from much of the lesser concerns of Amateur Operations.

The demise of the OO program and introduction of the Volunteer Monitor program is intended to focus attention on the most serious violations, and report them to the Enforcement Division, without OO intervention and communications directly with the offending parties. This said, the staff of VM operators will be on the order of a couple hundred support personnel who will work directly with ARRL HQ and the FCC to provide monitoring and follow-up.

We did discuss with Mr. Hollingsworth, the continuing need to support Amateur operations in issues such as Interference (QRM and RFI) Operating practices, Education of operators to reduce inappropriate operations, and community support in concerns over RF Exposure and Operating Safety. We recommended that the League consider having our ARRL Technical Support teams assume these roles. In fact, we have been doing that as part of our Section-level support role to the Amateurs here in Arizona.

Bob Norton N5EPA, Riley Hollingsworth K4ZDH, Jim Zimmerman N6KZ,  
At the Duke City Convention

**We invited Riley to come to Arizona and have an open forum to address these issues. He has agreed to come out and present the program elements and hear our concerns. He will be a featured speaker at the upcoming Southwestern Division Convention in Yuma Arizona.**

### **Working Committee for the ARRL Arizona Amateur Radio Emergency Services Convention**

We continue to research the possibility of establishing a State Emergency Services Convention in Flagstaff, to exhibit and develop our Arizona Emergency Services programs. Members of the Northern Arizona DX Association (NADXA), Cochise ARC, and ARRL-AZ Staff members have been investigating the locations, scope, and planning elements and are soliciting clubs and activities to participate. There will be an open forum to discuss planning and scope of the program, at the upcoming Maricopa Hamfest (Copa fest) on October 26<sup>th</sup>.

### **Arizona QSO Party Is A Success:**

The weekend of October 12/13 was the opportunity for all hams to participate in the Arizona QSO Party. Many hams through the State, the nation, and the world shared the air waves with fellow semi-contesters, to vie for the 36 different awards given by the QSO Party Committee led by Bill Smith in a variety of categories.

This was an exciting event where you compete against your own AZ friends, and get to know many more. Each year this event becomes more popular. Across America and around the world, we have become a popular go-to state for contacts. This year the long-skip was present on 20, 40, and 75 meters, and lots of worldwide Amateurs were greeted by Arizona's best Hams.

Go to <https://www.azqsoparty.org/> to view the results and see instructions on how to download your Cabrillo logbook files.

### **Section Emergency Coordinator, Dennis Bietry KE7EJF**

Now is the time to review your family's preparedness. A great place to get information is the preparedness campaign at [www.azein.gov](http://www.azein.gov). They will have weekly subjects; Plan, Prepare – Build A Kit, Inquire – Be Informed and Inspire Others. Another place for information is [www.ready.gov](http://www.ready.gov). Use these sources and make sure your families are prepared. If they aren't taken care of, you can't be a good communicator worrying about your family.

As I write this, many people on the East Coast are being required to test their preparedness as Hurricane Dorian bears down on them. Think of this while reviewing your own preparedness.

Dennis Bietry – KE7EJF/Section Emergency Coordinator / [ke7ejf@arrl.net](mailto:ke7ejf@arrl.net)

### **Youth and Scouting, Tom Fagan K7DF**

This month many Scouting enthusiasts participated in the Jamboree On The Air, Many potential amateurs were present at sites throughout the USA to celebrate using Amateur Radio not just as a means to communicate, but a method to develop friendship and understanding. The ARRL-AZ Staff made many contacts with stations here in Arizona, as well as across the USA sharing activities, and making friends. Thanks to all the Scout-Leaders and volunteers that coordinated and participated, to introduce many youth to the excitement of our activities.

Scouts at the Duke City Hamfest designed and constructed a hand-held antenna and intercepted signals from LEO Satellites during the event.

**Affiliated Club Coordinator, Mike Boger W7IJ**

An application has been approved for the newly-formed Chandler Ham Radio Club, with Gary Laatsch (KI7PBR) as president and 24 members. If you are interested contact the club at [President@chandlerhams.org](mailto:President@chandlerhams.org) . This is our fourth new club this year, and we continue to grow to accommodate our expanding Amateur population.

**Technical Coordinator, Carl Foster KB7AZ**

No Report

**New Hams and License Upgrades For September**

It was another great month for New and Upgrading Amateurs here in Arizona. 49 New Hams this month!

Particular congratulations go to all the VE Teams and Instructor Teams that keep us at the top of the list in Amateur Growth. Keep it up!!!! You are doing GREAT !!!
