

TOURS - Places for you or your club members to tour. These organizations make use of Wisconsin amateurs in times of emergency or public service. They would love to give you a tour of their facility! Visit them!

- *Point Beach Nuclear Power Plant* - 6610 Nuclear Rd., Two Rivers, WI 54241-9516 The Point Beach Energy Center does offer programs and is open to the general public with prior reservations. The Energy Center also operates a Speakers Bureau that provides nuclear professionals to speak to groups. Call the Energy Center at 1-800-880-8463 for information.
- [National Weather Service](#) - Sullivan N3533 Hardscrabble Rd. Dousman, WI 53118 Hub of our SKYWARN system. Contact Tom Kucharski, W9TJK, to arrange a tour.
- [Wisconsin Department of Transportation](#) - Traffic Operations Control Facility 633 W. Wisconsin Av., Suite 1200 Milwaukee, WI 53203 Tours available Monday through Thursday between 9am and 3pm. Give at least 3 to 4 days. Can accommodate about 15 to 20 people. The tour takes about 30 minutes. Phone 414-227-2149.
- [The Hearthstone House Appleton](#) - 920-730-8204. World's first home lighted by a central hydroelectric station. Designed as an architectural showplace, Hearthstone was built between 1881 and 1882 for Henry J. Rogers, a prominent Appleton businessman. On September 30, 1882, it became the first residence in the world to be lighted by a centrally located hydroelectric station using the Edison system. This tour is for hams who want to take a step back in time. They have old generators that work well and very old radios in the parlor that will make any ham smile.
